HIL0091204

12 - 1 Quart Bottles

Directions

Gum Removal/Tape Adhesive Residue: Poke holes in the gum. Apply a small amount of LIQUID GUM-GO to the gum and allow to set for one minute. Remove by scraping with a bone knife or putty knife. Rinse area after removal. Heavily embedded gum or adhesives may require a second application.

Spot Removal - Apply a small amount to the spot and allow to set for one minute. Agitate with the bone knife and blot with a white towel until spot is removed. Rinse with water and blot dry.

Not to be used as a thinner. HILLYARD products are formulated to be used as they come from the container. .

ATTENTION: Do not apply with a mist. Do not expose to heat or store at temperatures above 110 deg.F (43 deg.C). Emptied containers may retain hazardous residue and explosive vapors. Keep away from heat, sparks, and flames. Follow label warnings until container is thoroughly cleaned or destroyed. Avoid rubbing or over-wetting of spots that tend to spread. Over-wetting above carpet adhesive seam tapes may cause seam to separate.
