

Baseboard Stripper Gel

Designed to work on baseboards, hard to reach edges, corners and coves. Can also be used to clean build up on floor machines, doorways and stairs. Thickened formula stays where you apply it allowing the chemical to have more contact time without drying out. No running under the baseboard creating a bigger mess. The superior penetrating action allows baseboard and edging work to be done quicker, saving time and labor.

- Thickened to stay in place longer for better cleaning.
- Superior penetrating action.
- Ready-to-use formula saves time.

Technical Specifications

Appearance	Hazy, Viscous
Dilution Rate	RTU
Color	Light Amber
Scent	Non-Objectionable
Non Volatile Matter	2.50 - 3.50%
pH @ 25 deg. C	11.00 - 12.00

HMIS (Concentrate/RTU)

Flammability = 0 Health = 3 Reactivity = 0

Directions

Do not use on asphalt tile, linoleum, synthetic sports floors, rubber, painted, or varnished surfaces. (DO NOT USE ON WOOD.)

PRETEST: Test on an inconspicuous area; after 10 minutes, remove with towel, rinse, then check for color or texture change. Do not use if changes occur.

APPLICATION: Apply generous amount to surface with convenient flip-top lid and spread with a stripping pad or brush. Let set 1-5 minutes before scrubbing. Scrub baseboard with pad or with a floor machine Rinse thoroughly using a mop with NUTRA-RINSE solution.

NOTICE: Do not use on or near uncured painted surfaces; stripper vapors or liquid may cause discoloration. Floor may become slippery when stripper is present.

Safety

See material safety data sheet and product for safety information, handling and proper use.
