Non Volatile Matter	n/a
pH @ 25 deg. C	6.30

## Safety

See material safety data sheet and product for safety information, handling and proper use.

## HMIS (Concentrate/RTU)

Flammability = 3      Health = 2      Reactivity = 0

## Availability

## Directions

Pull towel from container and open to full size. Pre-wet marked area with towel, leaving the remover formulation on marks. After marked area has been initially wetted, begin removing marks in a circular wiping motion. If heavy build-up exists, reapply and continue wiping until marks are removed. May not be as effective on marks that have been on surface for an extended period of time. NOTICE: To remove graffiti from a painted surface, try product in a small, inconspicuous area to make sure paint is not removed along with graffiti. This product may soften or craze certain plastics.
